

I strongly oppose Sinclair Broadcasting requiring their 62 stations to air "Stolen Honor" -- a program casting aspersions on Senator John Kerry -- in what is clearly a use of public airwaves for partisan political influence.

I have already called Sinclair to voice my opinion and urge them to do the right thing.

If the FCC is to be taken seriously, you must act to stop this and, if unable to stop this, impose very serious consequences.

Rules governing air waves use exist for good reason -- to protect the American public from unfair influence by conglomerates and the resources of wealthy corporations.

Please do not let this unfair use of public property change the course of history.
